Highway Alert Signal Lamp

Novel Technologies, Kumarapuram, Trivandrum

January, 2016 - December, 2016

Highway Alert Signal Lamp is used for safe highway driving during night times. The circuit is built around two 555 timer IC and Darlington Phototransistor (L14F1). When the light of the approaching vehicle falls on the Darlington Phototransistor (L14F1) it activates the timer IC and the lamp automatically emits brilliant tri-color light and sound. The circuit saves considerable battery power.
